

AMENDMENTS TO THE SPECIFICATION

The paragraphs as shown below indicate added text with underlining and deleted text with ~~strikethrough~~.

Please AMEND paragraph [0051] to read as follows:

[0051] The present invention may be implemented by a method, an apparatus, and a system. When the present invention is implemented with a software unit, elements of the present invention are code segments for performing essential works. Programs or code segments are stored in a processor readable medium or transmitted in response to computer data signals coupled with a carrier wave in a transmission medium or communication networks. The processor readable medium includes a medium on which information can be stored or transmitted. The processor readable medium includes an electronic circuit, a semiconductor memory device, a ROM, a flash memory, an erasable ROM, a floppy disc, an optical disc, and a hard disc, ~~an optical fiber medium, and a radio frequency (RF) network. The computer data signals include signals that can be transmitted on a transmission medium, such as electronic network channels, optical fibers, air, electronic fields, and RF networks.~~
